

ADDICTION MEDICINE: STATE OF THE ART 2009 PATHWAYS TO ADDICTION AND RECOVERY

OCTOBER 7–10, 2009
HOTEL KABUKI, SAN FRANCISCO

CONFERENCE HIGHLIGHTS:

- **New Directions in Demand Reduction: A View from the ONDCP**
A. Thomas McLellan, PhD
- **What We Can Learn from Longitudinal Studies of Addiction**
George Vaillant, MD
- **The Science of Spirituality, Trust, and 12-Step Programs**
George Vaillant, MD; Lee Kaskutas, DrPH; Reef Karim, DO; Paul Zak, PhD
- **The Adolescent Brain and Adolescent Substance Abuse**
Paula Riggs, MD; Sandra Brown, PhD; Marc Fishman, MD; Mark DeAntonio, MD
- **Pain and Addiction Pathways**
Walter Ling, MD; Allan Basbaum, PhD
- **Prescription Drug Abuse**
H. Westley Clark, MD, JD, MPH; Scott Fishman, MD
- **Cannabis and Cannabinoids**
Tommy Pattij, PhD; Barbara Mason, PhD; Krista Medina, PhD

JOIN US IN SAN FRANCISCO

PLANNING COMMITTEE

Karen Miotto, MD, Conference Chair; Director of UCLA Addiction Medicine Service; Clinical Professor, David Geffen School of Medicine, UCLA, Los Angeles, CA

Peter Banys, MD, MSc, Clinical Professor of Psychiatry, UC San Francisco; Director, Substance Abuse Programs, VA Medical Center, San Francisco, CA

Timmen Cermak, MD, Psychiatrist in private practice, Mill Valley and San Francisco, CA; Incoming CSAM President

Itai Danovitch, MD, Director, Addiction Psychiatry Clinical Services; Associate Director, Addiction Psychiatry Fellowship, Cedars Sinai, Los Angeles, CA

Dana Harris, MD, Psychiatry Resident IV, UCLA, Los Angeles, CA

Reef Karim, DO, Assistant Clinical Professor, Semel Institute for Neuroscience and Human Behavior; Associate Director, UCLA Addiction Medicine Clinic; Director, Beverly Hills Center for Self Control and Lifestyle Addictions

Monika Koch, MD, Addiction Psychiatrist, Chemical Dependence Recovery Program, Kaiser Permanente, Vallejo, CA

Jean Marsters, MD, Assistant Clinical Professor of Psychiatry, UC San Francisco

Ken Saffier, MD, Contra Costa Regional Medical Center Family Medicine Residency; Associate Clinical Professor, UC San Francisco and UC Davis

Suma Singh, MD, Medical Director, Department of Alcohol and Drug Services, Santa Clara Valley Health and Hospital System, San Jose, CA

Phuong Truong, MD, Director, Alcohol and Drug Abuse Prevention and Treatment Program, Fort Walton Beach, FL

INFORMATION

For more information, or to request additional copies of this brochure, contact:

California Society of Addiction Medicine
575 Market Street, Suite 2125

csam@compuserve.com
www.csam-asam.org

Join us for a stimulating and rewarding educational experience that will advance your understanding of addiction medicine and improve your clinical practice.

Karen Miotto, MD
Conference Chair

This year, federal insurance parity for substance abuse treatment has become law and a new administration promises a reorientation of health care policies. At this juncture, so rife with potential, we are pleased to offer a program emphasizing the latest evidence-based innovations in our field.

CSAM is honored to have two central figures in addiction research with us at this conference. Since the publication of *The Natural History of Alcoholism* in 1983, **George Vaillant, MD**, has been on the front lines of addiction treatment. He will give us both an update on more than 30 years of longitudinal studies on alcoholism and drug abuse and a review of the neurobiology underlying the success of twelve-step programs. **A. Thomas McLellan, PhD**, an acclaimed researcher in treatment and treatment outcome, will share his view of the new directions that drug abuse policy will take under the Obama administration. He is President Obama's nominee for Deputy Director of the Office of National Drug Control Policy.

THURSDAY, OCTOBER 8

Our opening session features three scientists on the cutting edge of addiction research. **Antonello Bonci, MD**'s research focuses on how stress and chronic exposure to ethanol and cocaine produce long-term changes in neuronal plasticity. **Howard Fields, MD, PhD** will discuss alcohol genetics and its implications for pharmacotherapy, and **Dorit Ron, PhD** will address medication development for alcoholism with peptide and hormonal targets. The Thursday afternoon session will provide the latest research and clinical insights in the science of spirituality, trust, and research enhancing twelve-step participation.

FRIDAY, OCTOBER 9

The developing adolescent brain carries unique risks for drug abuse, yet many physicians feel unprepared to meet the challenge of treating adolescents and young adults. Friday morning's session will begin with **Sandra Brown, PhD** presenting on the sequence of brain development in adolescents. **Paula Riggs, MD** and **Marc DeAntonio, MD** will speak on innovations in the evaluation and treatment of adolescents with co-occurring mental illness and ADHD, and **Marc Fishman, MD** will discuss the treatment of teen opioid addiction.

Friday afternoon's sessions will focus on state of the art clinical practice related to treating chronic pain and addiction. **Allan Basbaum, PhD** and **Walter Ling MD** will explore common neurological pathways underlying both chronic pain and addiction and outline their clinical implications. CSAT Director, **H. Westley Clark, MD, JD, MPH** will characterize the epidemic of prescription drug abuse and discuss proposed federal legislation which would establish new requirements for prescribing Schedule II medications. **Scott Fishman, MD** will explore the impact of these changes on pain management.

SATURDAY, OCTOBER 10

A half-day program on cannabinoid pharmacology and the treatment of marijuana use disorders will conclude the conference. **Tommy Pattij, PhD** from the Netherlands will present his work on the role of the brain's endogenous cannabinoid system in modulating executive function. **Barbara Mason, PhD** will present unpublished research on the roll of gabapentin in cannabis withdrawal. **Krista Medina, PhD** will discuss her study which measured neurocognitive impairment in adolescent marijuana users with 30 days of sobriety.

There are also a variety of full-day and half-day pre-conference workshops to deepen your understanding of several challenging and state of the art topics.

CONFERENCE INFORMATION

CREDIT

PHYSICIANS: The California Society of Addiction Medicine (CSAM) is accredited by the Institute for Medical Quality/California Medical Association to provide continuing medical education for physicians. CSAM takes responsibility for the content, quality and scientific integrity of this CME activity.

CSAM designates this educational activity for a maximum of 25 AMA PRA Category 1 Credit(s)[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity. This credit may also be applied to the CMA Certification in Continuing Medical Education.

FAMILY PHYSICIANS: Accreditation is pending from the American Academy of Family Physicians.

PSYCHOLOGISTS: The California Board of Psychology accepts CME courses accredited by the California Medical Association for continuing education credit. In other states, where requirements vary, psychologists should check with their state board.

THERAPISTS: This course meets requirements for up to 25 hours of continuing education credit for MFTs, MFCCs and LCSWs as required by the California Board of Behavioral Sciences. The provider number is PCE3447.

DRUG ABUSE COUNSELORS: CSAM has been approved as California Association of Drug Abuse Counselors Education Provider #4C-05-415-0411. All applying for CAADAC credit should report their hours directly to CAADAC.

NURSES: The California Board of Registered Nursing recognizes Category 1 CME for RN license renewal purposes. Nurses may report Category 1 CME on a one-to-one basis. Write Category 1 CME in place of a provider number when reporting credits.

PHYSICIAN ASSISTANTS: The American Academy of Physician Assistants and the NCCPA accept Category 1 Physician CME on a one-for-one basis.

HOTEL

The conference hotel is the Hotel Kabuki located in San Francisco's Japantown at 1625 Post Street. **A limited number of rooms** are available at the conference rate of **\$179 per night** for single or double rooms **until September 10, 2009**. After this date, the hotel may offer any remaining rooms at the prevailing rate.

To make reservations, phone 1-800-533-4567. Identify yourself as a CSAM registrant to receive the conference rate. Rooms can also be booked online at www.csam-asam.org.

Hotel Kabuki is located approximately 15 miles from both the San Francisco and Oakland Airports. Lorrie's Airport Shuttle is available from the San Francisco Airport by reservation (\$15 one way, price subject to change).

EDUCATIONAL OBJECTIVES

A complete list of educational objectives for this course appears on the conference website at www.csam-asam.org.

Upon completion of this course participants should be able to:

- Identify pharmacological substrates for new treatments of alcoholism.
- Recognize mechanisms underlying the effective engagement in twelve-step programs and the role of the physician in facilitating twelve-step treatment.
- Describe the normal sequence of brain development in adolescents and how this may advise clinical practice.
- List common barriers to caring for adolescents with opioid dependence and become more familiar with integrated approaches to improve their treatment outcomes.
- Assess the overlap in the neurobiology of pain and addiction and determine the implications for treatment of chronic pain and substance abuse.
- Implement clinical practices that balance the need to control the epidemic of prescription drug abuse with the need to provide effective pain management.
- Understand the role of the brain's endogenous cannabinoid system in modulating executive function, the treatment of cannabis withdrawal, and the impact of THC on subtle cognitive functioning in adolescents even after abstinence is achieved.

OTHER ACTIVITIES

- **Twelve-Step/Mutual Help Meetings** will be held every day during the conference at 7:30 am and 8:00 pm.
- **Sunrise Runs on Thursday and Friday:** Meet in the hotel lobby at 6:45 am both days.

PRE-CONFERENCE WORKSHOPS

(LIMITED REGISTRATION. ADDITIONAL FEE.)

Wednesday, October 7

FULL DAY WORKSHOPS: 9:00 AM – 5:00 PM

Pain and Addiction: A Combined Workshop for Physicians Who Treat Pain and for Methadone Treatment Providers

The morning focuses on pain management in a primary care practice or pain practice where there are patients who are referred to a methadone maintenance treatment program for management of opioid dependence. It also addresses care of pain patients who are in methadone treatment, with emphasis on how to coordinate care between the physician prescribing for pain and the methadone program treatment staff.

For the afternoon, the audience selects one of two concurrent sessions. One provides a clinical overview of neck and back pain and considers pharmacological management of such chronic pain conditions in patients at risk for misuse or addiction. Two other topics will be covered—opioid-induced hyperalgesia and the future of buprenorphine used for pain.

The other concurrent session addresses medical issues specific to methadone treatment such as sexual dysfunction, cardiac considerations, sleep apnea, risk management in an OTP, and “what do you do when there is no evidence to guide your decision?”

Offered by CSAM Committee on Treatment of Opioid Dependence; CSAM Task Force on Pain and Addiction; California Chapter of the American Academy of Pain Medicine; and the California Department of Alcohol and Drug Programs.

FACULTY INCLUDES:

Daniel Alford, MD, Associate Professor of Medicine, Boston University School of Medicine, Boston, MA

Joseph Graas, PhD, Medical Director, San Diego Reference Laboratory

John J. McCarthy, MD, Executive and Medical Director, Bi-Valley Medical Clinic, Carmichael, CA

Paul Kreis, MD, Assistant Professor, Anesthesiology, Pain Medicine, UC Davis School of Medicine

Jerome Schofferman, MD, Director of Research and Education, San Francisco Spine Institute; SpineCare Medical Group, Inc., Daly City, CA

Lee Snook, MD, Metropolitan Pain Management Consultants, Sacramento, CA

What is SBIRT? How Do You Do It and Teach It Effectively?

This workshop is designed for physicians who teach in residency training programs to improve teaching skills about screening for and assessing alcohol and drug use, conducting a brief intervention and making referrals—even with patients who are resistant to the efforts. The majority of the time will be spent in role plays with patients, followed by feedback from clinicians experienced in SBIRT interactions and education specialists. Interested residents are welcome to register.

Sponsored by the Medical Education and Research Foundation for the Treatment of Alcoholism and Other Drug Dependencies (MERF). A limited number of scholarships are available from MERF for residents and faculty in residency training programs.

FACULTY INCLUDES:

Richard Brown, MD, MPH, Associate Professor, University of Wisconsin School of Medicine; Clinical Director, WI Initiative to Promote Healthy Lifestyles

Jennifer Hetteima, PhD, Assistant Professor, Department of Psychiatry and Neurobehavioral Sciences, University of Virginia, UVA Center for Addiction Research and Education

Paula Lum, MD, MPH, Assistant Professor of Medicine, Positive Health Program, San Francisco General Hospital, UC San Francisco

Julie Nyquist, PhD, Professor, Division of Medical Education, Keck School of Medicine at USC, Los Angeles, CA

Ken Saffier, MD, Contra Costa Regional Medical Center Family Medicine Residency; Associate Clinical Professor, Departments of Family and Community Medicine, UC San Francisco and UC Davis

MORNING WORKSHOP: 8:30 AM – 12 NOON

Urban Trauma, Addiction, and The Search for Forgiveness

Lisa Najavits, PhD

Post-Traumatic Stress Disorder (PTSD) and substance dependence are closely interwoven. While it has long been recognized that addiction facilitates traumas, it is increasingly apparent that the pathophysiology of these two disorders is closely linked as well—with virtually all substances of abuse having important biological effects at multiple levels of the stress system (cortex, sub-cortex, and hypothalamic-pituitary-adrenal axis). Although the etiological relationship between PTSD and addiction has yet to be fully elucidated, clinicians must face the conundrum of managing these often unstable patients.

Addicted individuals are often simultaneously the victims of traumas and the victimizers of others. Meaningful recovery from addiction inevitably requires a working-through of social wreckage and an accounting of harm done to others as well as harms to one's social nexus. This workshop will seek to explore the relationship between co-occurring PTSD and addiction in order to inform clinical interventions that facilitate effective working-through.

Lisa Najavits, PhD, Associate Professor of Psychiatry, Harvard Medical School; Director of the Trauma Research Program in the Alcohol and Drug Abuse Treatment Center at McLean Hospital, Boston, MA. Najavits is internationally recognized for her ground-breaking work in developing *Seeking Safety* treatment methods.

Charlie Marmar, MD, Professor-in-residence and Vice Chair, UC San Francisco Department of Psychiatry; Chief of Mental Health Services, VA Medical Center, San Francisco, CA

Peter Banys, MD, MSc, Clinical Professor of Psychiatry, UC San Francisco; Director, Substance Abuse Programs, VA Medical Center, San Francisco, CA

Itai Danovitch, MD, Director, Addiction Psychiatry Clinical Services, Associate Director, Addiction Psychiatry Fellowship, Cedars Sinai, Los Angeles, CA. Dr

AFTERNOON WORKSHOP: 1:30 PM – 5:00 PM

Too Much Sex, Gambling and Shopping: Addressing Out of Control Behaviors

This workshop will address the diagnostic criteria and treatment options for “out of control behaviors,” also known as impulse control disorders, behavioral addictions or process addictions. With the internet and new technologies providing more and more access to potential behavioral vulnerabilities, the topic of how to address these clinical disorders is both controversial and fascinating.

The workshop will begin with an overview of impulse control disorders and a presentation on possible DSM V criteria for behavioral addictions. Faculty with extensive experience in treating these disorders will explore the features and treatment of pathologic gambling, compulsive shopping, and “sex addiction.”

Jon Grant, MD, Associate Professor of Psychiatry at the University of Minnesota; Co-director, Impulse Control Disorders Clinic, University of Minnesota Medical Center, Minneapolis, MN

Donald Black, MD, Professor of Psychiatry at the University of Iowa Carver College of Medicine, Iowa City, Iowa

Reef Karim, DO, Assistant Clinical Professor, Semel Institute for Neuroscience and Human Behavior; Associate Director, UCLA Addiction Medicine Clinic; Director, Beverly Hills Center for Self Control and Lifestyle Addictions

Thursday, October 8

8:30 am . . . Introduction and Overview

Karen Miotto, MD, Conference Chair

8:45 New Directions in Demand Reduction: A View from the ONDCP

A. Thomas McLellan, PhD, Nominee for Deputy Director for Demand Reduction, Office of National Drug Control Policy; Professor of Psychiatry, University of Pennsylvania; Executive Director, Treatment Research Institute, Philadelphia, PA

A. Thomas McLellan, PhD

9:35 Orexin, CRF, and Synaptic Plasticity in Relation to Drug Addiction

Antonello Bonci, MD, Professor of Neurology, Howard J. Weinberger Chair in Addiction Research, Ernest Gallo Clinic and Research Center and Department of Neurology, UC San Francisco.

10:05 Break with exhibitors

10:25 Presentation of the Vernelle Fox Award

10:30 GDNF: A Therapeutic Target for the Treatment of Alcohol Abuse Disorders

Dorit Ron, PhD, Professor, Department of Neurology, UC San Francisco; Principal Investigator, Ernest Gallo Clinic and Research Center

11:00 Update on Alcohol Research: How to Make a Better Naltrexone

Howard Fields, MD, PhD, Professor, Neurology and Physiology. Director, Wheeler Center for the Neurobiology of Addiction, Ernest Gallo Clinic and Research Center, UC San Francisco

11:30 Thirty-year Follow-up on Individuals with Alcohol Use Disorders

George Vaillant, MD, Professor of Psychiatry, Harvard Medical School; Senior Physician (Psychiatry), Brigham and Women’s Hospital, Boston, MA

12:15 pm Break for Lunch

12:15 Lunch Discussion: Update on Changes to Physician Health Programs in California

Update by the CSAM Committee on Physician Well-Being. Grab a box lunch and bring your questions and comments. All welcome, no charge.

1:30 Addiction, Recovery, and Trust

Paul Zak, PhD, Founding Director of the Center for Neuroeconomics Studies and Professor of Economics, Claremont Graduate University; Professor of Neurology, Loma Linda University Medical Center

2:15 Research Update on Enhancing Twelve-Step Participation

Lee Ann Kaskutas, DrPH, Senior Researcher, Alcohol Research Group, Emeryville, CA

3:00 Case Discussion

3:30 Break with exhibitors

3:50 Presentation of the Community Service Award

3:55 Spirituality and Addiction Recovery

Reef Karim, DO, Assistant Clinical Professor, Semel Institute for Neuroscience and Human Behavior; Associate Director, UCLA Addiction Medicine Clinic; Director, Beverly Hills Center for Self Control and Lifestyle Addictions

4:40 Twelve-Step Recovery and the Reward Pathway

George Vaillant, MD, Professor of Psychiatry, Harvard Medical School; Senior Physician (Psychiatry), Brigham and Women’s Hospital, Boston, MA

George Vaillant, MD

5:30 Adjourn for the Day

7:30 pm Dessert Reception (free to registrants/guests)
Twelve-Step Programs and Addiction Medicine:
A conversation with John Chappel, MD and George Vaillant, MD

PLENARY SESSION

Friday, October 9

TREATMENT OF ADOLESCENT SUBSTANCE ABUSE

8:30 am . . . **Adolescent Brain Development and Addiction: Research Findings Clinicians Should Know**

Sandra Brown, PhD, Professor, Department of Psychiatry and Psychology, UCSD; Chief, Psychology Service, Veterans Affairs San Diego Healthcare System

9:20 **Advances in Research on the Treatment of Adolescents with Co-Occurring Psychiatric and Substance Use Disorders**

Paula Riggs, MD, Associate Professor of Psychiatry, Department of Psychiatry, University of Colorado School of Medicine, Denver, CO

Paula Riggs, MD

10:10 . . . **Break with exhibitors**

10:30 . . . **Treatment of Opioid Dependence in Adolescents and Young Adults**

Marc Fishman, MD, Medical Director, Maryland Treatment Centers; Assistant Professor, Johns Hopkins University, Baltimore, MD

11:15 . . . **Case Discussion**

11:35 . . . **ADHD and Substance Abuse in Adolescents and Young Adults**

Mark DeAntonio, MD, Clinical Professor and Director, Inpatient Child and Adolescent Service, UCLA; Semel Institute for Neuroscience and Human Behavior

12:20 pm . **Break for Lunch**

12:30 . . . **CSAM Annual Business Meeting**

(Non-members welcome)
Grab a lunch and attend.

PAIN AND ADDICTION PATHWAYS

1:45 **The Neurobiological Basis of Pain and its Control**

Allan Basbaum, PhD, FRS, Professor and Chair, Department of Anatomy, UCSF School of Medicine, San Francisco, CA

2:35 **Opioids in Pain and Addiction: What God Hath Joined Together Can Man Put Asunder?**

Walter Ling, MD, Professor of Psychiatry and Director, Integrated Substance Abuse Programs, David Geffen School of Medicine, UCLA

Walter Ling, MD

3:05 **Panel: The Overlap of Pain and Addiction: Clinical Applications**

3:15 **Break with exhibitors**

PRESCRIPTION DRUG ABUSE

3:35 **New Federal Initiatives in Addressing Prescription Drug Abuse**

H. Westley Clark, MD, JD, MPH, Director, Center for Substance Abuse Treatment

H. Westley Clark, MD, JD, MPH

4:05 **New Medications: Risk Evaluation, Mitigation Strategies, and the FDA's New Requirements**

Scott Fishman, MD, Professor and Chief, Division of Pain Medicine, Department of Anesthesia and Pain Medicine, UC Davis Medical Center, Sacramento, CA

4:40 **Panel: Application to Clinical Practice — from Clinical and Regulatory Viewpoints**

4:55 **The Difficult Patient: What Difficult Patients Do and Why They Do It**

Scott Fishman, MD, Professor and Chief, Division of Pain Medicine, Dept. of Anesthesia and Pain Medicine, UC Davis Medical Center, Sacramento, CA

5:30 **Adjourn for the day**

Saturday, October 10

CANNABIS AND THE BRAIN'S ENDOCANNABINOIDS

8:30 am . . . **Cannabinoid Modulation of Executive Functions**

Tommy Pattij, PhD, Department of Anatomy and Neurosciences, Center for Neurogenomics and Cognitive Research, VU University Medical Center, Amsterdam, The Netherlands

9:20 **Neuropsychological Functioning in Adolescent Marijuana Users**

Krista Medina, PhD, Assistant Professor, Department of Psychology, University of Cincinnati, OH

10:00 . . . **Break**

10:15 . . . **Effects of Gabapentin on Cannabis Withdrawal**

Barbara Mason, PhD, Pearson Family Professor, Committee on the Neurobiology of Addictive Disorders; Co-Director, Pearson Center for Alcoholism and Addiction Research, The Scripps Research Institute, La Jolla, CA

Barbara Mason, PhD

11:05 . . . **Case Discussions / Panel**

12:00 pm . **CSAM's Blueprint for Adolescent Treatment: The Clinical and Public Policy Imperative of Early Diagnosis**

Timmen Cermak, MD, Private practice of Psychiatry, San Francisco; Incoming CSAM President

12:30 . . . **Adjourn Conference**

ADDICTION MEDICINE STATE OF THE ART 2009

October 7 – 10, 2009, San Francisco, CA Register on-line at: www.csam-asam.org

Name: _____ Degree: _____

PRE-CONFERENCE WORKSHOPS: WEDNESDAY, OCTOBER 7

FULL-DAY WORKSHOPS (9:00 AM – 5:00 PM)

- A. Pain and Addiction: A Combined Workshop for Physicians Who Treat Pain and for Methadone Treatment Providers
- B. What is SBIRT? How Do You Do It and Teach It Effectively?

MORNING HALF-DAY WORKSHOP (8:30 AM – 12 NOON)

- C. Urban Trauma, Addiction, and The Search for Forgiveness

AFTERNOON HALF-DAY WORKSHOP (1:30 PM – 5:00 PM)

- D. Too Much Sex, Gambling and Shopping: Addressing Out of Control Behaviors

NON-MEMBERS: Check here if you are a physician who would like to join the American Society of Addiction Medicine and the California Society of Addiction Medicine. Join now and receive 50% off your membership dues, and attend the conference at the member rate saving up to \$150 off the conference fees. You will be invoiced for partial year membership dues depending on when you join. You must pay your dues before the start of the conference to take advantage of this offer.

MEDICAL STUDENTS, RESIDENTS AND FELLOWS: A limited number of scholarships to those interested in attending the conference are provided by the Medical Education and Research Foundation (MERF). A separate application is required; it is available on-line at www.csam-asam.org and www.merfweb.org.

ADDICTION MEDICINE STATE OF THE ART CONFERENCE: THURSDAY, FRIDAY, SATURDAY - OCTOBER 8 – 10

- Three-Day Registration One-Day Registration: *(select days)* Thursday Friday Saturday

FEES:	Wed. Pre-Conf. Full-Day Workshop	Wed. Pre-Conf. Half-Day Workshops (per wkshp)	Three-Day (Thur-Sat) Registration	One-Day (Thur or Fri) Registration (per day)	One-Day (Sat only) Registration
