Join Us in Anaheim

Colleagues and friends, please join us in Anaheim, California for this year's California Society of Addiction Medicine Review Course, one of the country's premiere review conferences in the field of addiction medicine.

Dana Harris, MD,
Conference Chair

We are honored this year to have a schedule of pre-eminent leaders in the field of addiction to share their knowledge and experience with you. The conference will begin with an overview of the prescription drug epidemic and will feature **Douglas Gourlay, MD**, who will discuss misuse and abuse of prescription opiates. **Richard Ries, MD**, will provide an overview of addiction and co-occurring psychiatric disorders as well as a discussion of how DSM-5 impacts diagnostic issues. **Thomas Kosten, MD**, will present an overview of pharmacology as well as stimulants, including emerging treatments. We will also hear from **George Koob, PhD** on the neurobiology of addiction; **John Kelly, PhD** on the evidence behind 12-Step and its role in treatment; and **Richard Rawson, PhD** on treatment modalities. **Peter Banys, MD** will discuss drug policy – from international perspectives to what California physicians need to know about cannabis reforms.

As always, we will carry on a CSAM tradition of promoting collegiality and physician interaction with small group discussion of cases relevant to the topics presented to complement the didactic lectures. Additionally, we hope you will attend our grab-and-go lunch on Thursday, designed to facilitate organization of CSAM Connecting and Consulting Regional Groups so that you can carry the spirit of CSAM education and collegiality home with you. For our **Thursday night dessert reception** we have planned an evening in tribute to those who have inspired generations in addiction medicine. Friday night's **Roaring 20's themed dinner** will allow for further fun and interaction with peers in a relaxed setting.

Our **pre-conference workshops** will offer a more in-depth look at topics ranging from the complex patient, with case-based discussion of patients presenting with substance use disorders as well as pain and psychiatric issues; physician well-being; motivational interviewing; and the exciting emerging area of food and addiction.

Back by popular demand is our **ABAM Certification Exam Preparation Track** for those who would like more emphasis on test-taking tips, enriched study materials, practice questions, and guidance on how to make the most of valuable study time.

Whether you are preparing for the American Board of Addiction Medicine Certification Exam, refreshing your knowledge of the field, or deepening your understanding of the diagnosis and treatment of addictions, you are in for an educationally rich and rewarding experience.

Who Should Attend?

Practicing physicians in both primary care and other specialty fields seeking an introduction to the full spectrum of substance use disorders, their diagnosis, and appropriate management.

Physicians preparing for the certification examination in addiction medicine requiring an overview of the core elements of addiction medicine in a way that allows them to identify the areas where they may need more study.

Physicians currently practicing in the field who want a refresher course based on the latest clinical research.

Other health care professionals, including psychologists, therapists, nurses and drug abuse counselors, who are involved in the treatment of patients with substance.

Addiction Medicine Review Course

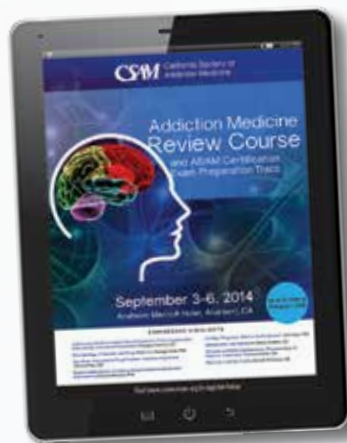

The three-day Review Course (Thursday through Saturday) presents an overview of the core elements of addiction medicine, presented by top experts in the field. It can serve as a broad review for clinicians, a review of the basics for newcomers, or a starting point for self-assessment and study for those planning to sit for the American Board of Addiction Medicine Certification Exam. Since it is not designed exclusively for test preparation, some material not likely to be on the test will be included in plenary sessions as part of providing the foundation for informed clinical practice. Participants sit at tables with a facilitator who will guide case discussions and answer questions. Participants receive a course syllabus on a USB drive with copies of all lecture handouts and selected articles and have the opportunity to purchase a print syllabus.

American Board of Addiction Medicine Certification Exam Preparation Track (additional fee)

In addition to the three-day Review Course, CSAM also offers an ABAM Certification Exam Preparation Track. Prior to the Review Course, Exam Track participants will download a study guide organized by topic. Also, those taking the Exam Preparation Track will be able to access an online pre-conference assessment test to help identify areas where additional study may be needed. The Certification Exam Preparation Track at the conference consists of a four-hour workshop on Wednesday afternoon (September 3) and three one-hour sessions on Thursday, Friday, and Saturday mornings, prior to the start of the Review Course. Content includes test-taking strategies, sample questions, high-yield exam content, and tips on how to prepare for the exam. A post-conference practice exam will also be available. Those taking the Certification Exam Preparation Track must also sign-up for the Review Course.

Special Conference Activities and Features

- **Post-Conference Materials:** After the conference, all participants will have access to all conference presentations (audio synced to slides); mp3 files and PowerPoint Presentations
- **Conference App:** Attendees will be able to download a conference app to view slides, take notes during sessions, explore the full conference schedule, find exhibitors, browse the list of conference attendees, access social media and much more!
- **CSAM Theater:** A mini-movie theater featuring live demos, films, and interactive media. Popcorn included.
- **Thursday Evening Dessert Reception** (included in registration fee)
- **Friday Dinner** (included in registration fee); guests \$50
- **12-Step/Mutual Help Meetings:** These will be held every day during the conference at 7:00 am and 9:00 pm.

Educational Objectives

A complete list of educational objectives for this course appears on the conference website at www.csam-asam.org.

Upon completion of this course, participants should be able to:

- Recognize the effects of alcohol, tobacco, and other drugs in both tolerant and non-tolerant individuals;
- Understand the basic neurobiological, behavioral, and genetic mechanisms of addiction;
- Describe the main drugs of abuse, their pharmacology, and specifics associated with the diagnosis, detoxification, and treatment for each, and apply in clinical situations;
- Apply in treatment an understanding of the main features of related psychological disorders seen in patients suffering from substance abuse disorders.

Credit

Physicians: The California Society of Addiction Medicine (CSAM) is accredited by the Institute for Medical Quality/California Medical Association to provide continuing medical education for physicians. CSAM takes responsibility for the content, quality and scientific integrity of this CME activity.

CSAM designates this live educational activity for a maximum of 31 *AMA PRA Category 1 Credits™* (see below). Physicians should only claim credit commensurate with the extent of their participation in the activity. This credit may also be applied to the CMA Certification in Continuing Medical Education.

Addiction Medicine Review Course 18.5 credits
Certification Exam Preparation Track 9 credits
Pre-Conference Workshops 7 credits

(Those taking the Certification Exam Preparation Track can only take a morning workshop with 3.5 units.)

This course has been approved by the **American Board of Addiction Medicine (ABAM)**. Physicians enrolled in the ABAM Maintenance of Certification (MOC) Program can apply a maximum of 31 *AMA PRA Category 1 Credits™* for completing the Review Course, Certification Exam Track, and Workshops.

CEU Credit is available for psychologists, therapists, drug abuse counselors, nurses and physician assistants. See www.csam-asam.org for details.

Hotel/Travel

The conference hotel is the Anaheim Marriott located at 700 Convention Center Way, Anaheim. There are a limited number of rooms available at the conference rate of \$105/night for a single or double room through August 11, 2014. Please call 1-800-228-9290 for a reservation and make sure that you mention the CSAM Addiction Medicine Review Course to get the special rate. **If you wait until the deadline there is no guarantee that rooms will still be available.** The nearest airport to the hotel is Orange County/John Wayne. Anaheim is also accessible from Los Angeles and Long Beach airports.

Downtown Disneyland District, Disneyland, and Disney California Adventure Park are located just three blocks from the hotel.

Visit www.csam-asam.org to register today

Pre-Conference Workshops

Wednesday, September 3 (additional fee)

Workshops cover specific areas of clinical interest and are designed to meet a clinical need. They are not designed as part of either a broad overview of addiction medicine (Review Course) or for certification exam preparation. They can be taken together with the Review Course or alone. If a participant plans on being part of the Certification Exam Preparation Track, then only a morning workshop can be attended as the Exam Track begins Wednesday afternoon.

Morning Workshops

(8:30 am to 12:00 noon)

The Complex Patient: Pain and Prescription Opioid Abuse

Prescription opioid abuse has become an epidemic in this country. This advanced workshop reviews the complex biopsychosocial factors that contribute to this problem, and provides specific strategies for how individual providers and larger health care systems can work with these patients to mitigate the problem. This workshop also provides advanced training on the use of buprenorphine during the perioperative period, and how and when to taper buprenorphine.

Workshop planners: Anna Lembke, MD and Murtuza Ghadiali, MD and Joan Striebel, MD

Anna Lembke, MD, Program Director, Stanford Addiction Medicine Program; Chief Stanford Addiction Medicine Clinic | **Douglas Gourlay, MD**, Director, Pain and Chemical Dependency Division, Wasser Pain Management Centre, Mount Sinai Hospital, Toronto | **Andrea Rubinstein, MD**, Chief, Department of Chronic Pain, Department of Anesthesiology and Research Chair, Kaiser Santa Rosa Medical Center; Assistant Clinical Professor of Family and Community Medicine, UC San Francisco | **Judith Martin, MD**, Medical Director of Substance Abuse Services, Dept. of Public Health, City and County of San Francisco

Food and Addiction

In this case-based workshop, participants will learn about the controversial area of "food addiction." Aspects of disordered eating will be discussed, including the neurobiological underpinnings of "addiction" to food, stress and its relationship to disordered eating, and the relationship between food and other substance addictions. Presenters will draw on basic science and clinical knowledge to inform their discussions.

Workshop planners: Asma Asyyed, MD; Suma Singh, MD; and Margaret Haglund, MD
Mark Gold, MD, Chair, Department of Psychiatry, University of Florida College of Medicine | **Eric Zorrilla, PhD**, Associate Professor, The Scripps Research Institute and Associate Adjunct Professor, Department of Neurosciences, UC San Diego | **Christy Waters, MD**, Department of Psychiatry; Kaiser Permanente San Francisco Medical Center

Statewide Physician Health Programs: Why They Are Needed and What They Should Look Like

This workshop will provide a basis for attendees to understand and interact with physician health programs in their states. Following an update on efforts to re-establish a physician health program in California, the arguments for and against such programs will be critically assessed in a "point-counterpoint." Clinical challenges in drug testing physicians will be discussed both in relation to physician health programs as well as more generally. The medical director of the Colorado Physician Health Program will discuss the components of an ideal program.

Workshop planners: Karen Miotto, MD; Py Driscoll, MD; Gregory Skipper, MD

James Conway, MFT, Pacific Assistance Group | **Dorris Gundersen, MD**, Medical Director of the Colorado Physician Health Program; Assistant Clinical Professor, Department of Psychiatry, University of Colorado Denver | **James Hay, MD**, North Coast Family Medical Group, San Diego; Board Chair, California Public Protection and Physician Health | **Gregory Skipper, MD**, Medical Director, Professional Health Services, Promises Treatment Centers | **Michael Sucher, MD**, California Physicians Health Program

Afternoon Workshops

(1:30 pm to 5:00 pm)

The Complex Patient: Clinical Management of Patients with Substance Use Disorders and Other Co-occurring Psychiatric Conditions

Substance use disorder patients who also present with trauma and PTSD, personality disorders, psychotic disorders, or affective disorders – these are some of our most difficult patients. This workshop will utilize case-based and didactic approaches to teach evidence-based and practical clinical interventions. An important clinical update on non-medical use and diversion of prescription stimulants among young adults will also be provided.

Workshop planners: Jean Marsters, MD; Dana Harris, MD; Joan Striebel, MD

Kristine Burkman, PhD, Staff Psychologist, San Francisco VA Medical Center | **Kimberly Caldeira, MS**, Associate Director, Center on Young Adult Learning and Development, University of Maryland School of Public Health | **Richard Ries, MD**, Professor of Psychiatry, University of Washington Medical School | **John Straznickas, MD**, Associate Clinical Professor, UC San Francisco

1:30 pm to 5:30 pm

American Board of Addiction Medicine Certification Exam Preparation Track

September 3-6, 2014 | Anaheim Marriott Hotel, Anaheim, CA

Motivational Interviewing for Busy Clinicians

This workshop will review and teach motivational interviewing (MI) tools for treating unhealthy alcohol and drug use as well as for promoting behavior change in primary care and other specialties. Emphasis will be on mentored small group learning, and clinical skills acquisition and practice. All participants will develop continuing learning plans to increase proficiency.

Karena Franses, MSW, LCSW, Clinical Social Supervisor, UC San Francisco, Member of M.I.N.T. (Motivational Interviewing Network of Trainers); | **Ken Saffier, MD**, Family and Addiction Medicine Physician, Contra Costa County Health Services Department, Concord Health Center, Member of M.I.N.T.

Addressing Obstacles to Physician Health and Recovery

This workshop will provide insight and tools for those who work to maintain or restore physician wellness. Included will be examination of experiences of physicians in recovery, methods to address issues such as shame, co-dependency, and stress, and tools that can be used to facilitate physician health. A final case-based session will address clinical challenges facing hospital well-being committees including assessment, intervention, and monitoring.

Workshop Planners: Karen Miotto, MD; Py Driscoll, MD, Gregory Skipper, MD

Timmen Cermak, MD, Private Practice of Addiction Psychiatry, Mill Valley | **Py Driscoll, MD**, Internal Medicine and Addiction Medicine Consultant, Alameda County Medical Center and Alta Mira Recovery | **Harry Hartounian, MD**, Medical Director, Betty Ford Center, Rancho Mirage

Addiction Medicine Review Course (September 4-6)

Thursday, September 4

7:15 am **American Board of Addiction Medicine Certification Exam Preparation Track**

Plenary

8:30 am **Welcome and Introduction**

Dana Harris, MD, Conference Chair

8:35 am **Addressing the Prescription Opioid Epidemic: From Irresponsible Prescribing to Universal Precautions**

Douglas Gourlay, MD, Director, Pain and Chemical Dependency Division, Wasser Pain Management Centre, Mount Sinai Hospital, Toronto

9:20 am **Heroin to Bupre: Opioid Use Disorders and Treatments**

Judith Martin, MD, Medical Director of Substance Abuse Services, Dept. of Public Health, City and County of San Francisco

10:20 am **Case Discussion**

11:00 am **Break with Exhibitors**

11:20 am **The Other Prescription Drug Problem: Sedative-Hypnotics**

Richard Ries, MD, Professor of Psychiatry, University of Washington Medical School, Seattle

12:10 pm **You Ordered Drug Testing: Now What?**

Douglas Gourlay, MD, Director, Pain and Chemical Dependency Division, Wasser Pain Management Centre, Mount Sinai Hospital, Toronto

12:40 pm **Break for Lunch**

12:45 pm **Regional Networking Lunch**

Grab a box lunch and meet with colleagues from your locale.

2:15 pm **Presentation of the Vernelle Fox and Community Service Awards**

2:25 pm **Co-occurring Disorders and DSM-5**

Richard Ries, MD, Professor of Psychiatry, University of Washington Medical School

3:10 pm **Beyond Medications: Evidence-Based Addiction Behavioral Interventions**

Richard Rawson, PhD, Associate Director, UCLA Integrated Substance Abuse Programs

3:55 pm **Case Discussion**

4:25 pm **Break with Exhibitors**

4:45 pm **Prenatal Substance Abuse and Treatment**

Nancy Goler, MD, Regional Medical Director: Early Start Program, Dept. of Obstetrics and Gynecology, Kaiser Permanente Vallejo Medical Center

5:20 pm **Recovery and Spirituality**

Garrett O'Connor, MD, Medical Director, The Elaine Breslow Institute, Beit T'Shuvah, Los Angeles

5:50 pm **Adjourn Plenary**

7:30 pm **Dessert Reception**

Inspiring Generations in Addiction Medicine

This gala evening will include an entertaining guest speaker and silent auction. (co-sponsored by the Medical Education and Research Foundation for the Treatment of Addiction).

Visit www.csam-asam.org to register today

Friday, September 5

7:15 am **American Board of Addiction Medicine Certification Exam Preparation Track**

Plenary

8:30 am **Message from CSAM President Itai Danovitch, MD**

8:35 am **Alcoholism and Its Complications**

Anthony Albanese, MD, Health Sciences Professor of Medicine; Director Chemical Dependency, Sacramento VA Medical Center

9:30 am **Addiction Pharmacology**

Thomas Kosten, MD, JH Waggoner Professor of Psychiatry and Co-Director, Institute for Clinical and Translational Research, Baylor College of Medicine, Houston

10:15 am **Case Discussion**

10:45 am **Break with Exhibitors**

11:05 am **Neurobiology of Alcohol and Drug Addiction**

George Koob, PhD, Director, National Institute on Alcohol Abuse and Alcoholism

11:50 am **Cannabis: Biology to Policy**

Timmen Cermak, MD, Private Practice of Psychiatry, Mill Valley

12:35 pm **Break for Lunch**

12:40 pm **CSAM Annual Business Meeting (non-members welcome)**

2:00 pm **Cocaine and Methamphetamine: Pharmacology to Pipeline Treatments**

Thomas Kosten, MD, JH Waggoner Professor of Psychiatry and Co-Director, Institute for Clinical and Translational Research, Baylor College of Medicine, Houston

2:55 pm **Ethics and Confidentiality**

David Kan, MD, Medical Director, Opioid Replacement Team and Associate Chief for Mental Health Services for QI/QA, Veterans Administration Medical Center, San Francisco

3:35 pm **Medical Complications of Substance Use Disorders**

Paula Lum, MD, Associate Professor of Clinical Medicine, Division of HIV/AIDS, Department of Medicine, UC San Francisco

4:10 pm **Case Discussion**

4:40 pm **Break with Exhibitors**

5:00 pm **12-Step Programs: What is the Evidence?**

John Kelly, PhD, Program Director, Addiction Recovery Management Service and Associate Director of the Center for Addiction Medicine, Massachusetts General Hospital; Elizabeth R. Spallin Associate Professor, Harvard Medical School

5:35 pm **Motivational Interviewing and Stages of Change**

Sharone Abramowitz, MD, Director, Behavioral and Addiction Medicine, Primary Care Medicine, Alameda Health System; Psychiatry Private Practice, Oakland and San Francisco

6:00 pm **Drug Policy: How the Evolving Landscape of Drug Abuse Interventions Will Impact Your Practice**

Peter Banys, MD, MSc, Health Sciences Clinical Professor of Psychiatry, UC San Francisco

6:30 pm **Adjourn Plenary**

7:00 pm **Roaring 20's Dinner**

(Included in registration fee; guests \$50) Unwind and have fun with your colleagues at a 1920's-themed evening. Enter the era of prohibition, flappers, jazz, gangsters and speakeasies.

9:00 pm **Open 12-Step Meeting**

Non-participants are invited to observe and ask questions at a 12-Step meeting.

Saturday, September 6

7:15 am **American Board of Addiction Medicine Certification Exam Preparation Track**

Plenary

8:30 am **Traditional to E-Cigarettes: Nicotine Abuse and Its Treatments**

Mitchell Nides, PhD, President, Los Angeles Clinical Trials; Director, Picture Quitting, the entertainment industry's quit smoking program

9:25 am **Adolescents And Addiction**

Deborah Simkin, MD, Clinical Assistant Professor, Department of Psychiatry, Emory University School of Medicine; Private Practice, Addiction and Child Psychiatry, Destin, FL

10:10 am **Case Discussion**

10:40 am **Break**

10:55 am **'E' to 'Bath Salts': Synthetic Psychostimulants and Hallucinogens**

Silas Smith, MD, Assistant Professor, Department of Emergency Medicine, New York University, School of Medicine

11:55 am **Emergency Room Presentations of Addictions**

Kent Olson, MD, Clinical Professor, UCB-UCSF Joint Medical Program; Medical Director, San Francisco Poison Control System

12:45 pm **Adjourn**
